CHRISTOPHER LIANG

Christopher and I go way back, as I have had the privilege of knowing him since we were 13 years of age, sharing the same secondary school in our hometown of Batu Pahat. I remembered him as an all-rounded student, constantly taking part in various co-curricular activities like St. John's Society as well as in most sports; and excelling in them. He has always been a very energetic individual, with a healthy dose of positivity and a strong influencer. He has an innate charisma, that even shone through when he was much younger.

As an entrepreneur, Christopher is very determined in everything he does. The moment he sets his mind to something, he goes all out to make it a reality. His perseverance and dedication to his work is a marvellous trait, he never gives up or gives in at the face of adversity. He believes that these challenges serve as a healthy push, for him to work harder and strive for the unattainable. Apart from that, another admirable quality that he possesses is his amazing people skills, and eloquence in conversation. He is able to hold an entire room's attention, making him a great public speaker.

Christopher has an incredible vision, when it comes to his career. There are many attributes that can be associated to his success, one of them being his execution power. He is a 'yes' man, and always takes immediate action when it comes to materializing a plan or a project. Apart from that, he advocates strong

team work within his office, and is always systematic and organized in everything he does. I believe these are strong traits that have contributed to his great success, making him a great role model for future young entrepreneurs.

Due to our lengthy friendship, I have had many fond memories shared with Christopher. One that stands out is certainly a memory of us as students. We were taking part in our sport's day athletics events, namely the 4 x 100 relay run, and the 4 x 400 relay run. We had a great sporting relationship, and through our hardwork and dedication, we won gold medals for the events. It was an achievement shared together, and I believe that today, we are sharing the same goal; to be the best in our industry, and to continue achieving gold medals for our work.

I would like to thank Christopher for everything we've been through together, as he has been an exceptional friend and business partner to me. I have the confidence that we can do something big and good for society, giving back in ways that we have always talked about. Thank you for everything Christopher, here's to many more great years together.
